Engineered design and dependable quality make all the difference for safety and confidence in every heavy truck service shop.

## Cottrill Dump Body Prop

### Take a stand for safety for truck service technicians

Cottrill developed and certified the Dump Body Prop to increase safety in our own truck service bays. Our approved prop is now available to all truck service facilities to help you comply with today's shop safety regulations.

- Meets current Ontario Ministry of Labour requirements for a certified dump body safety stand
- Prevents elevated dump bodies from lowering unintentionally during service\*
- Certified rating for loads up to 10,000 lbs.
- Fast, easy set-up; adjusts simply to required body angle
- Supplied with complete user instructions

### “Built by Cottrill”

Since 1999, Cottrill Heavy Equipment has been fabricating, integrating, repairing and servicing trucks, trailers and equipment for heavy-duty work in all vocational applications.

\*Safety stands are not intended to replace service hoists, or to support a body with a load in it.

**Service: Cottrill works with you for the life of your truck: warranty service; safety inspections, emissions tests, collision repairs; servicing for air, hydraulic and electrical systems; sandblasting and paint.**
